

Forbes Magazine Names Incyte One of the World's Most Innovative Companies for Third Consecutive Year

August 10, 2017

Company ranked 6th in 2017 and in Top 10 for Third Year Running

WILMINGTON, Del.--(BUSINESS WIRE)--Aug. 10, 2017-- Incyte Corporation (Nasdaq:INCY) today announced it has been ranked 6th on *Forbes* magazine's 2017 list of the World's Most Innovative Companies. Incyte, a biopharmaceutical company focused on the discovery, development and commercialization of proprietary therapeutics, is advancing an innovative and diverse portfolio of large and small molecules comprised of 17 development candidates against 14 different molecular targets.

"It is an honor to be recognized as one of the World's Most Innovative Companies by *Forbes* year-after-year," said Hervé Hoppenot, Incyte's Chief Executive Officer. "At Incyte, innovation is in our DNA. We push ourselves every day to be at the forefront of advancing science as we research and develop treatments that will positively impact the lives of patients around the world."

Forbes' ranking is based on the companies' "innovation premium," and only includes industries that are known to invest in innovation and businesses that have at least seven years of financial data and a market value greater than \$10 billion.
